

**LED Dimmable Driver  
Lighting Control System**

## Culture

### Mission Statement:

Command each lamp and all the lights to save energy and make them shining with charms of artistry.

### Expectation(s) in our perspectives:

To create a unique experience for users and a successful opportunity for employees

### Our Industrial Culture and Management Philosophy:

Keeping innovative thinking in mind and strive for outstanding products and services

### Our Concept of Values:

To undertake employment responsibilities for the society and create a successful environment for employees

### Our Spirit:

Innovation, Honesty, Equality, and Responsibility

Be innovative, diligent, professional, pragmatic, responsible and pursuing mutual benefit and win-win situation

## PRODUCT CERTIFICATES

ISO 9001

Australia SAA certification

RoHS Global environmental certification

UL LISTED Us UL certification

CB International CB certification

CE Europe CE certification

China 3C safety certification

Certificate of Origin

## New Chance

Thanks to the dramatic growth in sales, Euchips is urged to expand, starting with its second modern factory in Suzhou.

This new factory covers an area of 12 acres, will be mainly for LED driver production on large scales.

The Shanghai factory will continue to function for lighting controllers, system accessories and etc.

With improved volume and flexibility of manufacturing, the intimate coordination of the two factories will be continuously providing quality, efficiency and satisfaction to old and new customers.

## COMPANY INTRODUCTION

Shanghai Euchips Industrial Co. Ltd established in 2005, has devoted in lighting control products and systems for 13 years. After years of development, Euchips has become an ISO 9001 certified high-tech enterprise (Certificate No.:GR201531000523) .

Euchips always focuses on the innovation and development. Our professional and experienced R&D team accounts for over 30% of the whole company employees. Euchips has achieved over 80 patents. and also been awarded National High-Tech Enterprise in 2015, one of the TOP 10 Intelligent Lighting Brand in 2016 and outstanding cooperation of Shanghai Lighting Technology. Nowadays The products have obtained certifications with CE-LVD, CE-EMC, CB, UL, ENEC, SAA, 3C etc., and they have been exported to over 90 countries and regions.

Euchips offers a full range of lighting control product portfolios including DALI, 0-10V, Triac, DMX512, wireless & smart drivers, dimmers and control systems. Our slogan is 'Universal compatibility, None-flickering', Our product are widely used in hotels, bars and night clubs, residential areas, commercial buildings, offices around the world.

# Development History

2018

- <Intelligent LED Dimmable Drivers> has been accredited by Shanghai new and high-technology transformation achievements. No.: 001014418000357
- Join DALI2.0

2017

- Won Alighting "Excellent Technology Award"
- R&D Centers in Shenzhen, Zhuhai, Suzhou

2016

- Became a member of KNX manufacturer
- Won China 2016 Intelligent Building Brand Award

2015

- High-Tech Enterprise Certificates  
Certificate No.:GR201531000523

2013

- Partnership with WANDA

2012

- 'Smart Phase-Cut' launched leading the market
- Government STCSM Funding
- Enter DALI Organization

2010

- ODM DMX controllers for PHILIPS.

2008

- Renamed as Shanghai Euchips Industrial Co., Ltd
- DMX System

2005

- In June, Euchips established

13  
YEARS  
ABSORBED

# Production Line

Euchips has professional production team with complete SMT lines, advanced high speed chip mounter , soldering and test equipment , automatic production , to maintain consistency in production ; we strictly control the quality inspection from raw material to finished product.

1. Universal Auto Insert Machine: Components automatically inserted to PCB, accurate and efficient.

2. Screen Printing Auto Screen Printer: Solder Paste printed to PCB automatically.

3. 4 JUKI SMT Machines  
2 panasonic NPM high speed SMT machines

4. total 10 burning testers to burn every products

5. Automatic AOI visual inspection, which ensures every material properly used, material and PCB welding spot no lack of tin, insufficient solder and solder skips.

6. Two dip lines with six ATE testers

## DALI Group/Scene Controller

# DALI Series

DALI (Digital Addressable Lighting Interface) is one of the most popular standards of lighting control and a special protocol for digital lighting control. It is transmitted in the Manchester encoding format with great dimming function of whole, group dimming, addressing dimming, multiple scene mode settings, etc.

As requirements for lighting control system in modern high-end hotel, business center and home have increased, the Dali control is widely used and shows a strong advantage in the field of intelligent lighting control with its simple, reliable, excellent function, easy installation, flexible extend features.

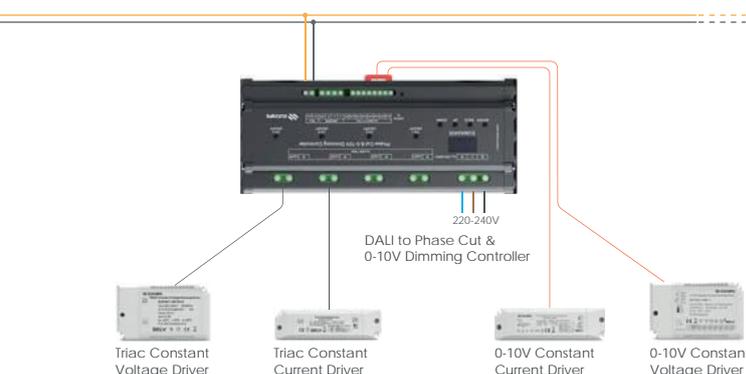

IEC62386 is the international standard of digital addressable lighting interface, which solves the compatibility of different manufacturer's devices. It provides designers with the best performance and the most personalized selection solution.

IEC62386-207 is the special requirements of LED module (DT6), which mainly defined the brightness adjustment and has been maturely applied in the field of lighting control.

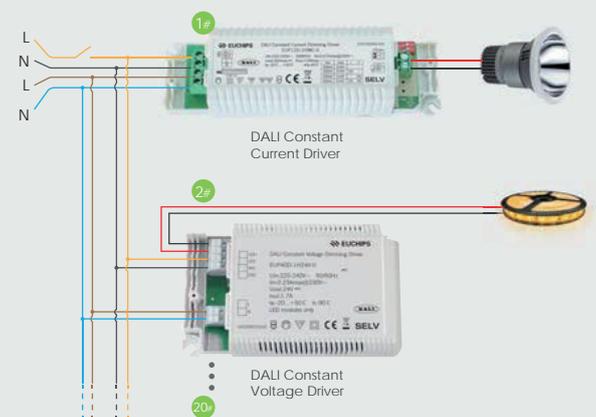

IEC62386-209 is the special requirement of color control (DT8), which supports color control, include RGB and color temperature. It can be widely used in education, office, hospital, retail and other occasions.

This increased color control provides architects with more options for using Dali lamps to control the color and brightness of each room.

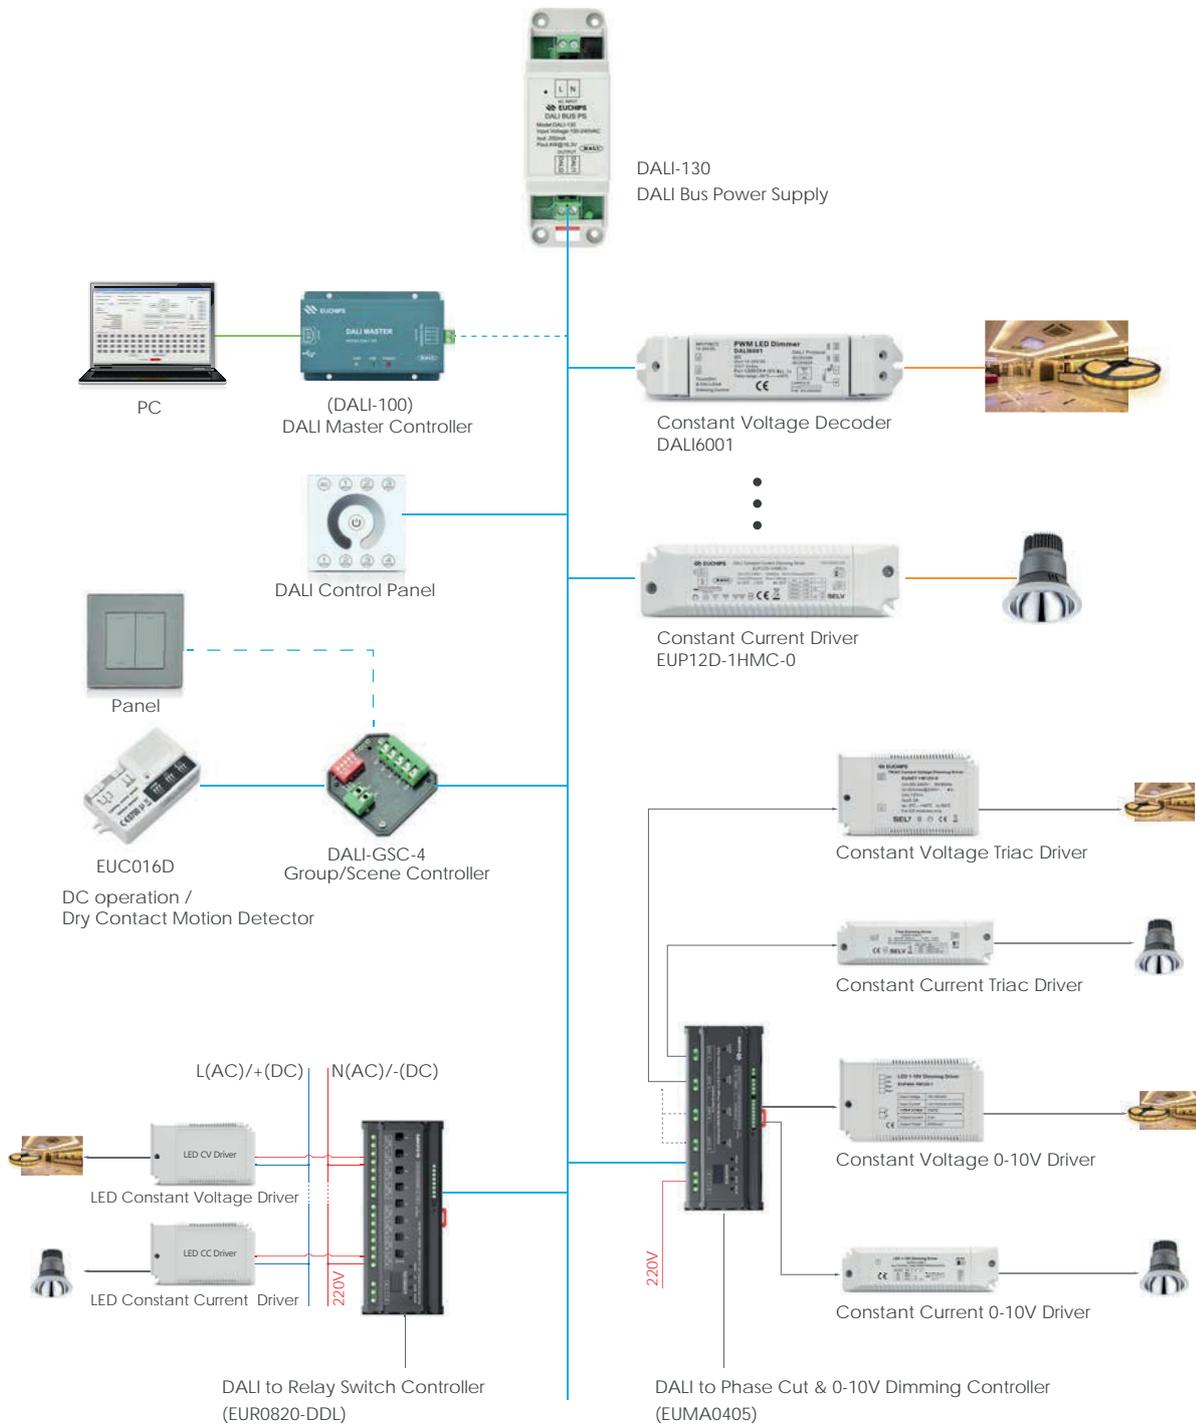

Dali standards have been developing over the decades and forming the DALI-2.0. DALI-2.0 fills the gaps of original standards and adds new function. It introduces the standardization of control devices, including input devices and control devices, while maintaining backward compatibility.

## Constant Voltage Drivers

### Description

Widely used for brightness adjusting and color-temp. controlling of LED constant voltage lights. It can be used as decoder and also driver. Dimming with 1-100% range (LED brightness starts at 1%).

### Features

- Comply to DALI standard protocol IEC 62386.
- Short circuit / Over load protection.
- Security level: 2
- DALI Digital control input, PWM output.
- **Support Touch DIM function, and can be dimmed manually.**

### Advantages

- PWM digital dimming, no alter the LED color rendering index.
- Built-in MCUs , customizable logarithmic curve, linear dimming curve.
- **Dimming depth : 1% Dimming range : 1%- 100%**
- **No minimum load requirements.**

**DIM Mode: Phase-Cut/ELV**

## Constant Current Drivers

### Description

Mainly used for monochrome constant current lamp dimming, set dimmer and driver as one of the dimming driver. To achieve bright lighting regulation with 1-100% dimming.

### Features

- Support DALI standard protocol IEC62386.
- **Support TouchDim function and can be dimmed manually.**
- PWM dimming, used for constant voltage lights.
- Support short circuit, over current protection, over temperature protection.

### Advantages

- MCUs built-in, customizable log curve, linear dimming curve.
- Secondary-level structure, less than 3%.
- Safe isolation, provide a more secure level.
- **Dimming depth: 1% Dimmingrange: 1%- 100%.**
- **Load range: 10% - 100%**

**TouchDIM: Support**

## Constant Voltage Decoder

### Description

Using DC power supply, PWM control output, mainly for LED constant voltage lamp dimming / color control.

### Features

- Support DALI standard protocol IEC62386.
- Support short circuit, over current protection, Safe level: second level.
- DALI digital control, PWM dimming.
- **Support TouchDim function and can be dimmed manually.**

### Advantages

- PWM digital dimming, no alter the LED color rendering index.
- Built-in MCUs , customizable logarithmic curve, linear dimming curve.
- **Dimming depth : 1% Dimming range : 1%- 100%.**
- **No minimum load requirements.**

## Constant Current Drivers Tunable White

### Description

Especially designed to allow for the Tunable White control of LED modules. It represent a simple way of CCT control via DALI using standard components – LED driver and DALI controller.

### Features

- Support DALI standard protocol IEC62386-209(DT8), **Only one DALI address is occupied.**
- Support short circuit, over current protection, over temperature protection.

### Advantages

- MCUs built-in, customizable log curve, linear dimming curve.
- **the current can be changed via software .**
- **Dimming depth: 1% Dimmingrange: 1%- 100%.**
- **PWM+CCR Dimming, Flicker -Free.**
- Secondary-level structure, less than 3%.
- Standby power <0.5W.

**TouchDIM: Support**

# DALI Master Controller

## Description

Communicating with PC by USB cable connection, build-in booster circuit can supply 25mA power from DALI bus. Software is easy to understand and use.

## Features

- Automatically check equipments accessible to Master.
- Automatically allocate short addresses according to DALI Protocol.
- Support re-addressing of all equipments.
- Able to set or read all the parameters in the parameter chart of DALI Protocol.
- Able to set or read by groups and scenes.

## Advantages

- Software interface friendly, easy to operate, learn and use.

## Tunable White DALI Panel

### Description

DALI-P03 is a touch-sensitive panel for easy-to-use control of lighting control systems and DALI Type 8 colour devices. It can be widely used in schools, retail, hospitals, and offices.

### Features

- Supports DALI T8 (Type 8) colour temperature.
- Supplied via DALI bus· Support broadcast control.
- Adjust the brightness and color temperature of the lamp.
- Save and call up to 4 scenes.
- Group serial number can be freely set by DIP switch.
- Use blue led button indicator, easy to use.
- Can support many standards electrical wall box
- Glass panel, fashion style.

## DALI Control Panel

### Description

Mainly used for LED constant current lamp dimming control, can be widely used in hotels, restaurants, villas, offices and other regions, to achieve digital dimming.

### Features

- Meet DALI standard protocol IEC60929/IEC62386.
- Use DALI BUS supply power.
- Support broadcast control.
- Can control up to 3 groups separately.
- Can control up to 4 scenes separately.
- Groups and scenes can be set by dip-switch on back side

### Advantages

- Stand alone controlled 3 groups, 4 scenes.
- Can set the scene by dial switch and select turn on and off.

Item No.	Input Voltage VDC	Power Consumption W	Control Signal	DALI Protocol	G.W. g	Size mm

## Five In One Dimming Drivers

# Hybrid

### Constant Current Dimmable Drivers

#### Features

- Single channel constant current output, selectable multilevel current.
- **Efficiency 82%.**
- **Active PFC.**
- Smooth dimming curves, without flick.
- Short circuit, overload, over temperature functions.
- Suitable for indoor LED lamps, such as LED downlight and panel light.

#### Advantages

- PWM digital dimming, CRI will not be changed.
- Built-in MCU, customized Logarithmic or Linear dimming curve.
- Second level of security isolation, output ripple is less than 3%.
- **Load range 10%-100%.**
- **Support five in one dimming.**  
(DALI/I1-10V active signal /PWM signal / adjustable resistance/Touch DIM).

**TouchDIM: Support**

## Hotel Room Scheme

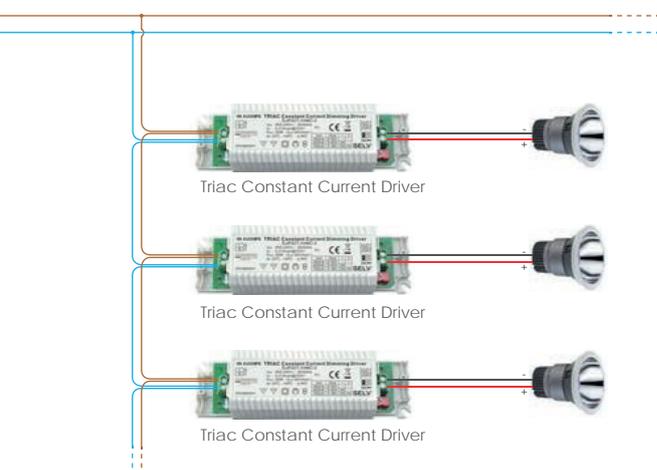

# Phase-Cut Series

Leading edge dimming usually uses silicon controlled rectifier (SCR) as a switching device, so it is also called silicon controlled dimmer (Phase-cut dimmer). Its working principle is to wait for the trigger to turn on from the zero phase of AC voltage, and when it turns on, AC power is transmitted to the load. The sine wave shape is changed by adjusting the conduction angle of each half wave of alternating current, so that the effective value of alternating current is changed to achieve the purpose of dimming.

The forward phase-cut (FPC) dimmer have the following advantages: low in dimming cost, compatible with existing lines, and does not need to be rewired, so it dominates the market. Most manufacturers also produce this type of dimmers.

The back-edge (reverse) phase-cut dimmer (RPC) turns on immediately after the half-wave of AC voltage starts, and turns off immediately when the half-wave voltage reaches the set turn-on angle. Similar to front-end dimming, dimming is achieved by adjusting the conduction angle.

The MOSFET is generally used as the switching device in the back edge phase-cut dimmer, because if the SCR is used as the active switch, it cannot be turned off immediately according to the characteristics of the SCR, and it will not turn off until the voltage half-wave crosses zero.

# Phase-Cut

## Constant Voltage Dimmable Drivers

### Description

Support Leading edge (Phase-Cut) and Trailing edge (ELV), suitable for DC 12-24V constant voltage LED lightings, such as LED strip light, LED flood light, etc. Widely used in hotel, club, villa, market, office and home.

### Features

- Output short-circuit protection, overpower protection, overcurrent protection.
- Smooth dimming curve, no flicker.

### Advantages

- Excellent compatibility with major brand control system.
- Controlled by PWM (Pulse-Width Modulation), not change color rendering index.
- Built-in MCU (Micro controller unit), support both logarithmic curves and linear curves dimming customizable.
- **Dimming depth 1%, dimming range 1% to 100%.**
- **No minimum load.**
- **Support Leading edge (Phase-Cut) and Trailing edge (ELV).**

# Phase-Cut

## Constant Voltage Dimmable Drivers

### Description

Support Leading edge (Phase-Cut) and Trailing edge (ELV), suitable for constant current LED lightings, such as LED down light, COB spot light, ceiling light, etc. Widely used in hotel, club, villa, market, office and home.

### Features

- Multi-current selection.
- Smooth dimming curve.
- Output short circuit protection and over current protection.

### Advantages

- Excellent compatibility with major brand control system.
- Built-in MCU (Micro controller unit), support both log curve and linear dimming (switchable).
- Secondary-level structure, output ripple current less 3%.
- Security isolation, provide security level.
- **Dimming depth 1%, dimming range 1% to 100%.**
- **Load range 10%-100%.**
- **Support Leading edge (Phase-Cut) and Trailing edge (ELV).**

## Triac/ELV Dimmer

### Features

- Support Leading edge (Phase-Cut) and Trailing edge (ELV) dimming power supply, incandescent, etc.
- High flame retardant material, high temperature resistance impact.
- Elegant, easy to operate, with fashionable and elegant appearance.
- Can directly replace the existing wall switch.

### Advantages

- Compatible with EUCHIPS drivers, smooth dimming curve and no flicker.
- Convenient wiring without removing shell, compatible electric box for countries.
- Multi-function and support Leading edge (Phase-Cut) and Trailing edge (ELV) dimming.

## Restaurant lighting control solution

# 0-10V&1-10V Series

Euchips' 0-10V/1-10V dimmable drivers solve the compatible problem between fluorescent lamps and LED lamps very successfully. They are widely used with various of capacity dimming system to control the LED ceiling lights, LED downlights, LED panel lights, LED wallwashers, LED strip lights and so on. Our 0-10V/1-10V dimmers support both linear and logarithmic dimming curve, dimming the lights very smoothly and are compatible with various famous lighting control systems, such as Lutron, Dynalite, Schneider, Clipsal, Osram, Philips, ABB and so on.

# 0-10V&1-10V

## Constant Voltage Dimmable Drivers

### Wiring Diagram

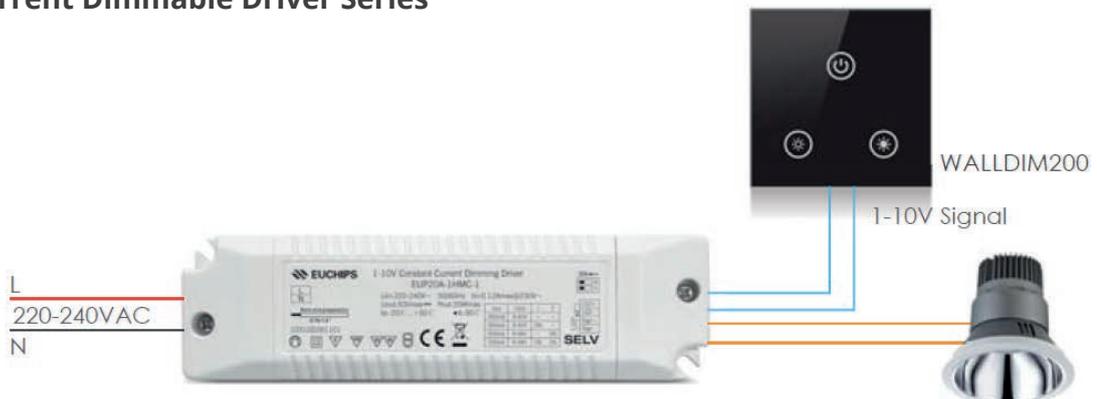

#### Constant Voltage Dimmer Series

#### Constant Voltage Analog Dimmer Series (Tunable White)

#### Constant Current Dimmable Driver Series

# 0-10V&1-10V Constant Voltage Dimmable Drivers

## Description

Our drivers work effectively with Lutron, controllers, supporting both 1-10V active dimming way and 1-10V passive dimming way, with smooth dimming curve and are flicker free.

They are widely used in dimming the brightness of various kind of constant voltage luminaries, such as LED strip, MR16, etc. With full dimming range of 0-100% according to the 1-10V output signals.

Added function of Short circuit protection, over voltage protection and over load protection.

## Features

- Smooth dimming curve, flicker-free.
- Customized Dimming curve, improving dimming effect.
- **No minimum load requirement.**
- **Can be used as normal driver when signal suspending.**
- Short circuit/ Over voltage/ Over load protection.

## Advantages

- PWM digital dimming way, do not change color rendering index(CRI).
- With MCU built-in, can be customized liner or logarithmic dimming curve.
- **Supporting 3-in-1 dimming way,(0-10v active signal/PWM signal/adjustable resistor).**
- **LED can start at 1%, 1-100% full dimming range.**

# 0-10V&1-10V Constant Current Dimmable Drivers

## Description

Our Constant current dimmable drivers are widely used in various indoor LED illumination, such as LED constant current spot light, down lights, panel lights. Single channel output, switchable output current level, supporting 1-10V dimming way, 100-240 VAC wide voltage input, 84%-88% high effectiveness. With active PFC function built-in, our dimmable drivers can be used as normal drivers when signal suspending. Having smooth dimming curve and flicker-free. With short-circuit function, being widely used in various indoor LED illuminations.

## Features

- Single channel output, switchable output current level.
- Supporting 1-10V dimming way, active/passive.
- **Having active PFC function built-in.**
- **Can be used as normal drivers when signal suspending.**

## Advantages

- **3-in-1 dimming.**
- With MCU built-in, customized Logarithm or Liner dimming curve.
- Secondary-level structure, less than 3% low-frequency ripple output.
- With security isolation function, having higher security level.
- **LED start from 1%, dimming range from 1-100%.**
- **10%-100% on-load range.**

**DIM Mode: 1-10**

# 0-10V&1-10V

## Constant Voltage Dimmable

### Description

Mainly used for dimming the brightness of the led strips and LED modules, or use the 1-10V signal to dimming the brightness; suitable for various kinds of led modules.

### Features

- Support the short circuit, over current protection and alarm function.
- Increase delay processing and increase anti-interference.
- Increase fade to fade effect, dimming is much smoother.

### Advantages

- Support 3-in-1 dimming function.
- PWM digital dimming, CRI will not be changed.
- Built-in MCU, customized Logarithmic or Linear dimming curve.
- **Support 3-in-1 dimming functions (0-10V /1-10V active signal /Adjustable resistance / PWM).**
- **Dimming depth is 1%, dimming scale is 1%-100%.**

# 0-10V&1-10V 0-10V Panel Controller

## Description

Walldim series are designed to be high-end, multi-functions touch panel controllers, with characteristics of fashionable and beautiful appearance, complete functions, easy operations, sensitive key touch. It is mainly used with 0-10V dimming controllers. It can realize 0-10V smooth dimming according to different requirements. Usually, the signal input current of our 0-10/1-10 dimmable drivers are less than 1mA, it's easy to calculate the quantity of the dimmable drivers that can connect to our wall dimmers, based on the output signal current of the wall dimmers.

## Features

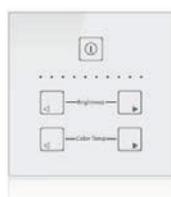

- 0-10V dimming mode, dimming curve is smooth.
- Touch control buttons, easy operations.
- Glass materials, with fashionable and beautiful appearance.

## Advantages

- Conform to the European rules, the installation box is the national standard.

## Hotel facade solution

# DMX/RDM Series

DMX 512 protocol is a Digital Multiplex protocol developed by USITT, the American Theater Technology Association. Because of its simplicity and practicality, it has been widely recognized by manufacturers and users all over the world since its introduction. More and more manufacturers are producing or adopting DMX 512 digital dimming equipment.

DMX is the abbreviation of Digital Multiplex, meaning multiplex digital transmission. DMX 512 control protocol is the industry standard for data transmission between lighting controller and lighting equipment issued by USITT in 1990. Its full name is USITT DMX 512 (1990), including electrical characteristics, data protocol and data format.

Euchips is currently one of the few suppliers in the world to provide a complete set of DMX and RDM solutions. We provide DMX master control and editing software, sub-control and DMX power supplies, DMX signal amplifiers, and various signal converters. For example, DMX to relay, DMX to 0 - 10V, DMX to SCR dimming and other rich product lines. The sub-controllers provide 1 channel dimming, 2 channel color temperature dimming, 3 channel RGB, 4 channel RGBW, 5 channel RGBWW and 8/ 12/ 24/ 32 channel sub - controllers.

## Multiple Protection, More Security

Over Current

Short Circuit

Over Temperature

## Diversified Output Port

Connector

RJ45

XLR-5

## OLED Screen

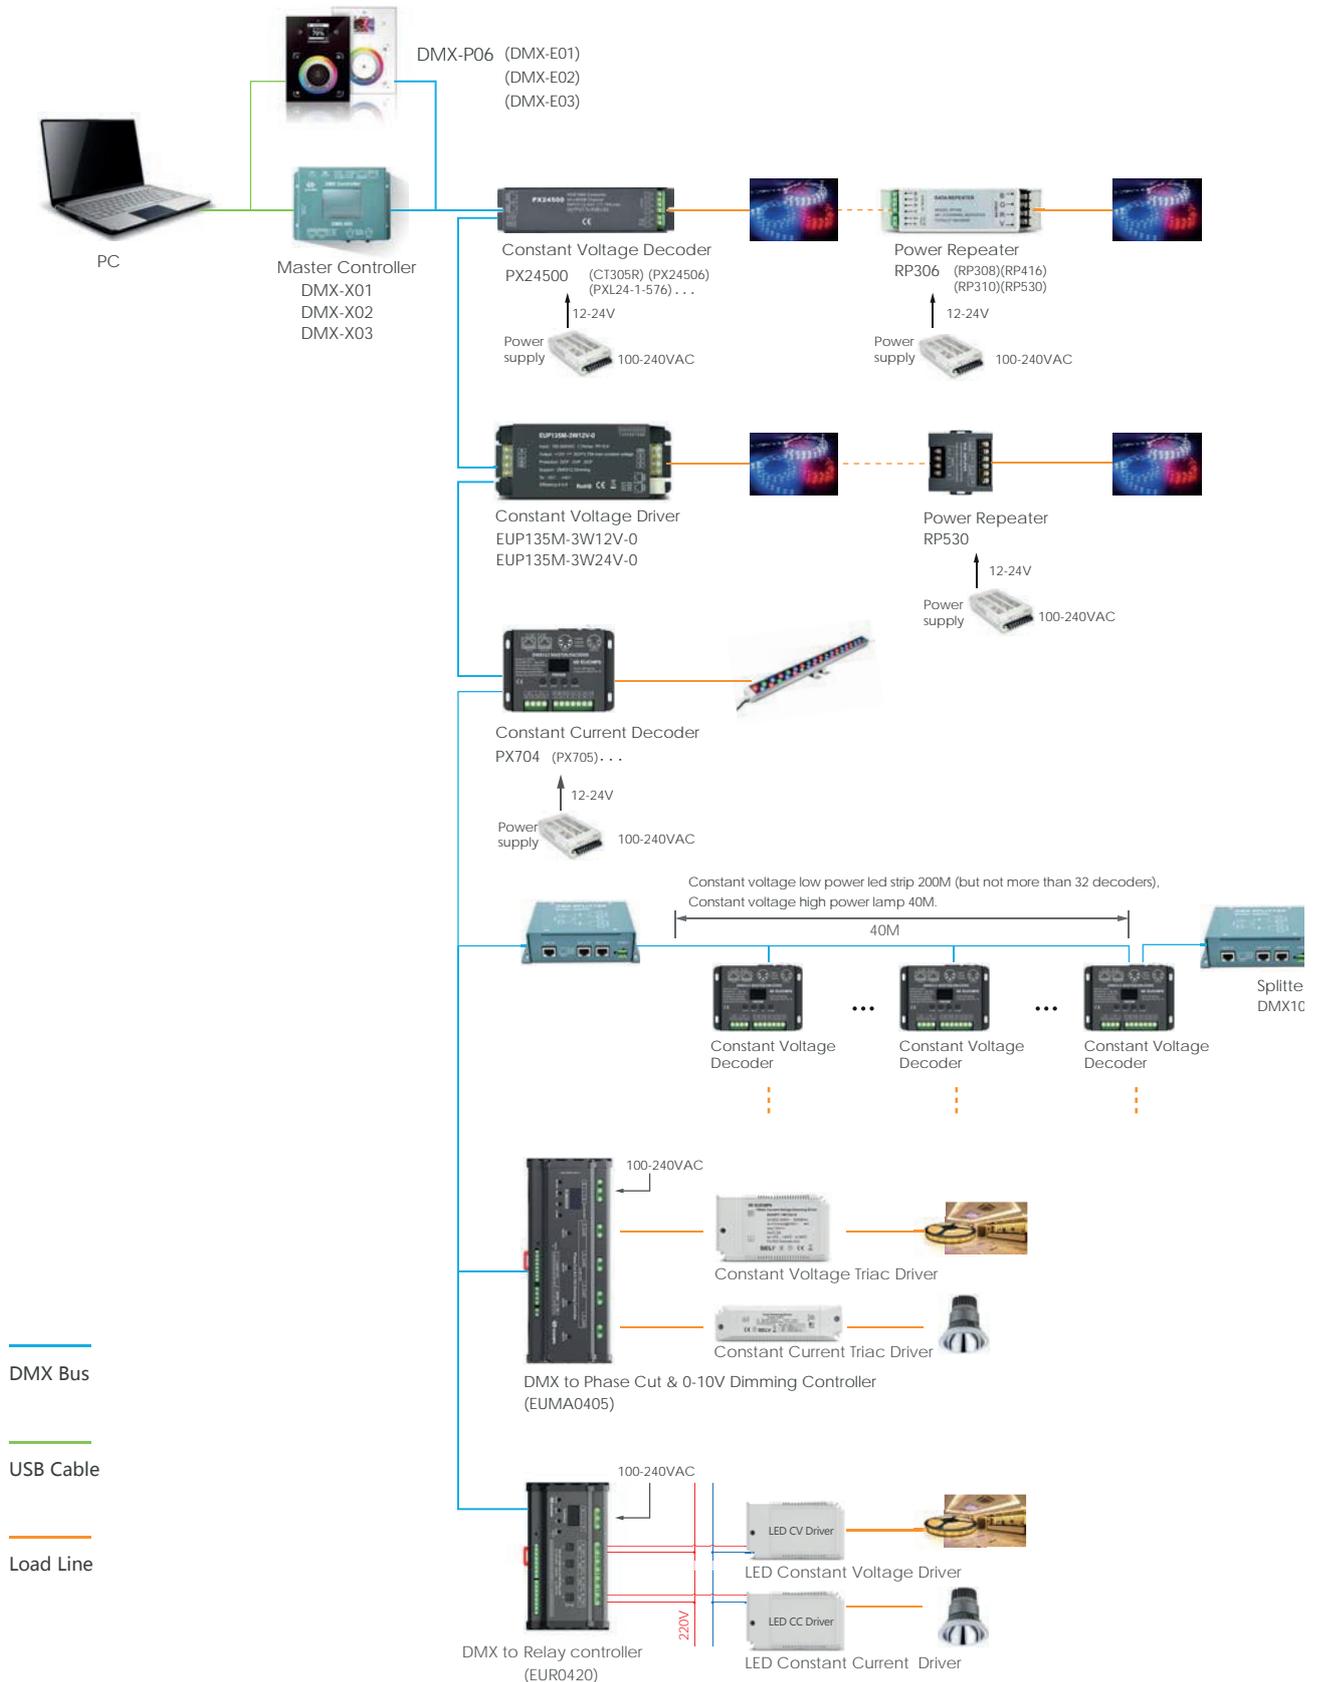

OLED screen and four buttons, make the operation more intuitive and more convenient

## Can be used as a master

Master mode and sub-control mode can be switched  
Can be used to dim single color/CCT/RGB/RGBW/ RGBWW

# DMX System Structure

# DMX

## Constant Voltage Decoders

### Description

PWM constant voltage output, working with DMX control system and mainly used to control kinds of single color or RGB LED strips and constant voltage light sources. Green terminals, RJ45 and XLR interface are optional. Need 12-24VDC external power supply.

### Features

- Meets DMX512/1990.
- 256-level brightness, full-color control.
- Works with control system, can express perfect effect.
- Can drive 1~4 channel of each lamp.
- Can set the DMX address freely.
- With anti-interference performance, over-heat and over-current protection, self-recovery function.

### Advantages

- PWM digital dimming, not changing the color rendering index.
- **No minimum loading required.**

# DMX

## Constant Voltage Decoders

### Description

PWM constant current output, working with DMX control system and mainly used for kinds of LED down lamps, tracklamps, ceiling lamps and constant current light sources. 12-48VDC input. Setting output currents and other parameters by Nixie tubes and DIP switches.

### Features

- Multiple output currents are optional.
- Can set DMX address freely.
- Modular, can be combined with LED lamps flexible.
- Over-heat protection, output short circuit protection.
- Constant Current Decoders.

### Advantages

- PWM digital dimming, not changing the color rendering index.
- **Loading range 10 -100%.**

## Constant Voltage Drivers

### Description

PWM constant voltage output, working with DMX control system and mainly used to kinds of single color or RGB LED strips and constant voltage light sources. 100-240VAC input, external power supplies are not needed.

### Features

- Works with control system, with perfect effect.
- Can set the DMX address freely.
- Uses touchable color ring remote control, easy to operate.
- With anti-interference performance, over-heat and over-current protection, self-recovery function.

### Advantages

- **High voltage power supply without external power supply.**
- Accurate dimming color.

Item No.	Product No.	Input Voltage VAC	Output Current Channel	Output Voltage Range V	Output power W	Protocol	G.W. g	Size mm

## X Series Master Controllers

### Description

DMX-X01 is a full-color LED DMX control system which focuses on indoor and outdoor decorative lighting, which can be used stand alone or with computer. It comprises scene-edit software. You can edit various lighting effects by downloading the programme which edit according to your special requirement from your PC. This control system can fulfill 256 grey levels for each R,G,B color, totally 16.77 million real full-color. The software has been developed specially for architectural lighting and features easy to use effects which can be dropped onto timelines, along with multi-zone and synchronization allowing you to program a project with multiple rooms and areas with ease.

### Features

- Meets DMX512/1990.
- **12 DMX Channels. Control 4 RGB Fixtures.**
- 12 channels output for RGB decoder.
- The maximum current of 5A/CH , up to 1440W.
- USB connectivity for programming and control.
- **Various Output Interface, RJ45 / Green Terminal.**
- 2 option buttons (Mode+, Mode-).

Item No.	Product No.	Input Voltage VDC	Protocol VDC	DMX Channels	OperAtion Mode	Connection	Software	Size mm
DMX-X01	KOMDMX-MASTER-X01	12-24	DMX512 (1990)	12	PC+Stand Alone	RJ45, Green Terminal	Euchips X-DMX	187.6*97*32

### Description

DMX-X02 is a full-color LED DMX control system which focuses on indoor and outdoor decorative lighting, which can be used stand alone or with computer. It comprises scene-edit software. You can edit various lighting effects by downloading the programme which edit according to your special requirement from your PC. This control system can fulfill 256 grey levels for each R,G,B color, totally 16.77 million real full-color. The software has been developed specially for architectural lighting and features easy to use effects which can be dropped onto timelines, along with multi-zone and synchronization allowing you to program a project with multiple rooms and areas with ease.

### Features

- Meets DMX512/1990.
- **512 DMX Channels PC or Stand Alone.**
- USB 2.0 connection program by software.
- **Various Output Interface, XLR-3 / RJ45 / Green terminal.**
- SD card of internal memory.
- Default scene triggering when power up.
- Stand Alone Memory capacity: 5000 steps to 100 steps.
- Compatible with any DMX fixture and DMX LED driver.
- Euchips X-DMX software compatible.

Item No.	Product No.	Input Voltage VDC	Protocol VDC	DMX Channels	OperAtion Mode	Connection	Software	Size mm
DMX-X02	KOMDMX-MASTER-X02	5	DMX512 (1990)	512	Stand Alone	XLR2, RJ45, Green Terminal	Euchips X-DMX	187.6*97*32

## Constant Voltage Drivers

### Description

DMX-X03 is a full-color LED DMX control system which focuses on indoor and outdoor decorative lighting, which can be used stand alone or with computer. It comprises scene-edit software. You can edit various lighting effects by downloading the programme which edit according to your special requirement from your PC. This control system can fulfill 256 grey levels for each R,G,B color, totally 16.77 million real full-color. The software has been developed specially for architectural lighting and features easy to use effects which can be dropped onto timelines, along with multi-zone and synchronization allowing you to program a project with multiple rooms and areas with ease.

### Features

- Meets DMX512/1990.
- **1024 DMX Channels. Control 340 RGB Fixtures.**
- Real time clock and calendar for time triggers.
- USB & Ethernet connectivity for programming and control.
- **Various Output Interface, XLR-3 / RJ45.**
- Micro SD card for stand alone use.
- 4 Dry Contact Triggers and RS485 Triggers (on RJ45).
- Network communication.
- Master/Slave mode to interconnect 64 interfaces (Stand Alone).
- Touch screen operation.

Item No.	Product No.	Input Voltage VDC	Protocol VDC	DMX Channels	Operation Mode	Connection	Software	Size mm
DMX-X03	KOMDMX-MASTER-X03	5	DMX512 (1990)	1024	Stand Alone	XLR3, RJ45	Euchips X-DMX	187.6*97*32
